1. The following is an examiner's statement of reasons for allowance:

The present invention pertains an integrated circuit. The prior arts, however, do not teach an integrated circuit comprising the combination of means for generating deterministic test vectors, means for receiving and processing the deterministic test vectors to produce an output signal, means for receiving the output signals and a first signal and blocking X signal portions of the output signals in response to the first signal and outputting the remainder of the output signals, and means for receiving the remainder of the output signals and generating a signature. Hence the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 5-17 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine T. Tu whose telephone number is (571)272-3831. The examiner can normally be reached on Mon-Thur. 8:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on (571)272-3819. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

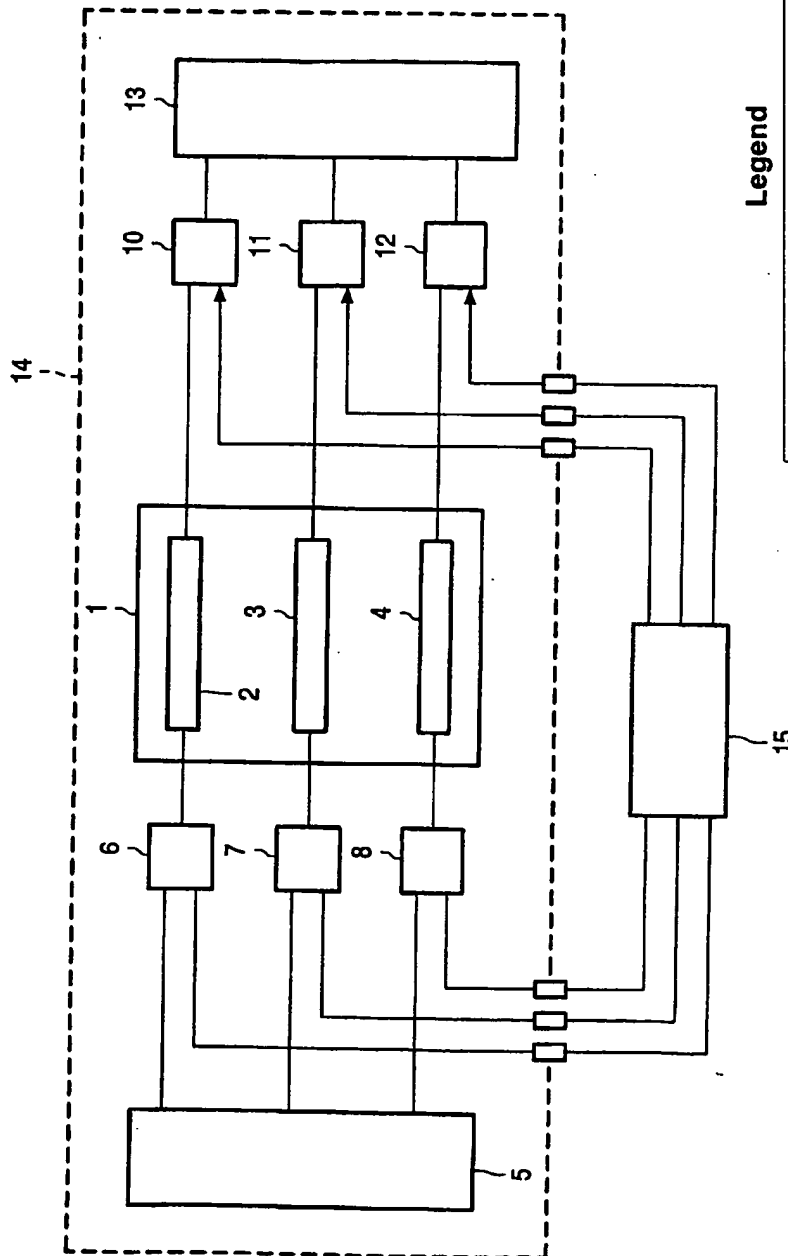

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
